 Saudi Arabia	October Led by Gerald	Explore the natural beauty and historical highlights of a country opening up to the world, as we travel through its deserts and mountains to the Red Sea.

Next Steps

As you can see, our love for exploring the world's most fascinating places continues with a range of exciting expeditions, many of them new and all of them designed by the expedition leaders. Each expedition is carefully planned to maximize the experience in each location, with most trips limited to small, intimate group sizes. As such, space is limited. Please add your name to any expeditions that interest you by emailing us today at info@apex-expeditions.com. This ensures you'll be among the very first to receive the detailed itinerary and rates as soon as they become available.

Adjustments to this expedition schedule may occur as dates and itineraries are finalized. Additional voyages may be added to this calendar as cruise operators confirm their 2026 itineraries.

Meet Our Leaders

Jonathan Rossouw

Jonathan is one of the world's most experienced expedition leaders, having guided wildlife expeditions in over 150 countries on all seven continents. He combines a legendary enthusiasm with an impressive knowledge of all aspects of natural history.

Kevin Clement

Not many people can say they have lived within Alaska's Denali and Glacier Bay National Parks, but Kevin is one. Nowadays, he spends most of his time leading adventures on all seven continents. As an artist, Kevin never travels without his sketchbook, or his sense of humor.

Peter Harrison

Peter has led expeditions throughout the world, from the Arctic to the Antarctic and everywhere in between. He has written and illustrated over a dozen books, of which his latest, *Seabirds: The New Identification Guide*, published May 2021, has been described by one reviewer as "a masterpiece of science and art."

Shirley Metz

Shirley's careers and accomplishments have spanned the globe. She co-founded Hobie Sports, developed active clothing lines, and consulted with major clothing manufacturers before becoming the first woman to ski overland to the South Pole to raise awareness for Antarctic conservation.

Marco Tonoli

Marco's love of the world's wilderness areas and the people within them led him to pursue what has turned into an adventurous career as a naturalist, guiding trips throughout Africa and India. Not only is Marco a talented photographer and videographer, he's also a skilled wildlife tracker.

Gerald Broddelez

Gerald has been leading wildlife-focused expeditions to some of the planet's most rewarding destinations for over 30 years. As a veteran expedition leader and lecturer on expedition ships, Gerald has travelled on all the world's oceans. His life list of mammals and birds is equally impressive.

Ingrid Nixon

Ingrid Nixon is a professional storyteller and former National Park Service ranger. She has worked in expedition tourism for over three decades, sharing stories of exploration, folklore, and natural history, while leading groups and driving Zodiacs. Ingrid also performs at storytelling festivals and events across the U.S.

Liam Rainier

Liam's love for the wilderness was instilled in him at an early age—his father's own adoration of nature fueled a steady exposure to new landscapes and fascinating wildlife. He has spent the last decade as a naturalist guide. His excitement and pure joy of experiencing wildlife sightings, big or small, is contagious.

Diogo Lucatelli

Diogo's passion for the natural world led him to study biology, ecology, and natural resources in Salvador da Bahia, Brazil. After graduating, he immersed himself in understanding the wetlands of the Pantanal, honing his guiding and tracking skills. His love for Brazil is evident in the way he shares his knowledge with guests.

Meet Our Leaders

Matt Boyle

Matt's passion for underwater exploration has led him to study the unique ecosystems that exist beneath the waves and gain a deep understanding of the ocean's secrets. His unwavering love for knowledge-seeking and discovery makes him a true adventurer in every sense of the word.

Dan Olsen

Dan has called Seward, Alaska, his home for nearly 20 years, working as a whale researcher, tour captain, and mountain and kayak guide. Dan became entranced with the variety of calls of Killer Whales and returned to graduate school where he dove deep into behavior, movement, diet, and family-specific call dialects.

Kristian Gillies

Working as an expedition leader and field naturalist allows Kristian to combine his interest in wildlife ecology, marine biology, and ornithology—sharing his passion as he goes. Kristian's background includes a degree in Conservation Biology, and time spent studying Blue Whales and Orcas.

Our Nine-Pointed Star

The compass rose, with its eight cardinal and ordinal points, resembles a star itself, but there are places to which an ordinary compass will not guide you. The ancient symbol of a nine-pointed star took this into account, with its ninth point symbolically indicating the way to a destination as yet undiscovered. Such destinations have always called explorers and seekers to distant horizons. We at Apex Expeditions have adopted the nine-pointed star as our symbol because its meaning aligns with our own philosophy of discovery and adventure. *Join us!*
